

Gentlemen: I am an XM radio subscriber who protests the efforts of the National Association of Broadcasters to limit what I can hear on my XM radio. I pay for the XM service and see no reason why NAB should be able to dictate what XM broadcasts and what they can't broadcast. I want to be able to receive weather and traffic reports along with the myriad of offerings XM provides that AM and FM do not. Please reject the NAB's petition 04-160 and support XM's ability to provide the programming we want and deserve.

Thank you,
H.S. Thorne
